

Sunshine

We all have our own dreams
Don't wake me when I sleep
I don't know where I am
Its hard remembering
Thats alright with me
I know what I've seen

I see sunshine on the rise
A sky that looks real blue
I see sunshine on the rise
And people I once knew

Wouldn't leave if I could
When I'm in the real deep
I don't know where I've been
So much to comprehend
Its like this overtime
I know its in my mind
